Experience in front-end technologies such as HTML, CSS, Bootstrap, JavaScript, React.JS

Java

📁 PROJECTS

Task To Do Management System

- Makes daily task of Staffs simple and stylish with help of unique interface and remainder of all tasks.
- Our project comprises two type of signup/login. One Admin another one Staffs. The admin can assign tasks for the staffs and rate them. The staffs complete the tasks and update the task as completed with proof.
- In frontend I had created homepage for both the staffs and the admin . One login and signup page for the staff and the admin.

BikeInsight: Unveiling Motorcycle Details, <https://github.com/Govarthana45/React-Project>

- Website showcasing motorcycle models with comprehensive details.
- Users can seamlessly view detailed specifications of various models, and conveniently mark their favorite bikes for easy access.

📖 COURSES

Full Stack development, Besant Technology
